

TAMANU OIL

Product code : 7482

African Essentials Organic Tamanu Oil is a rich revitalizing oil with a characteristic aroma and various topical anti-inflammatory, antimicrobial and antiaging properties that significantly help moisturize and improve the texture of the skin. It can be used undiluted or as the main carrier oil for different aromatherapy treatments intended to stimulate microcirculation, reduce signs of aging and imperfections, soothe irritated skin or purify skin affected by acne.

Recommended use for :

- ✓ Dry, irritated skin
- ✓ Eczema, psoriasis
- ✓ Targeted treatment for acne
- ✓ Rosacea, varicose veins
- ✓ Minor cuts and scratches
- ✓ Heavy legs
- ✓ Hair loss
- ✓ Skin inflammation
- ✓ Dark circles and puffiness

Botanical name : *Calophyllum Inophyllum*

Origin : Madagascar

Certified organic by Ecocert Canada

Tamanu Oil is an all-natural thick vegetable oil. It is not edible but is mainly used for cosmetic and dermatological purposes. Its natural healing properties are particularly popular. Tamanu Oil has a lovely green color and has a powerful scent with a characteristic nutty scent. It is a heat loving oil since the oil can only be extracted from sun-dried nuts and easily thickens or solidify at temperatures below 25 °C. Like all oils, it is not soluble in water, but it can be easily diluted in other vegetable oils.

To benefit from its healing properties, generously massage Tamanu Oil on the face or body before bedtime and allow enough time for absorption. You can also use it as a targeted treatment to fight acne or other skin conditions. Pure Tamanu Oil can slightly solidify or form layers when left stationary or if exposed to cold temperatures. Place the sealed bottle in warm water for a few minutes, then shake the bottle.
